FOREWORD

Prime Contract Awards in Labor Surplus Areas is published semiannually. This report provides detailed information on Department of Defense (DoD) prime contract awards over \$25,000 for performance in labor surplus areas. Supporting data are presented by state, county, and city, according to the purchasing department making the awards.

INTRODUCTION

Prime Contract Awards in Labor Surplus Areas: First Half Fiscal Year 1985 presents detailed information on Department of Defense (DoD) prime contract awards over \$25,000 awarded to contractors located in a labor surplus area (LSA). Except for Table 2, data include information on contracts awarded to U.S. business firms, educational and nonprofit organizations, and Government agencies, including awards in support of the DoD Foreign Military Sales program. (Table 2 contains data on awards to U.S. business firms only.)

The U.S. Department of Labor (DOL) has responsibility for defining LSA's and for establishing eligibility criteria. (Criteria for consideration as an LSA and a list of eligible areas are contained in DOL's publication *Area Trends in Employment and Unemployment*.)

CHANGES IN LSA CRITERIA

Before January 1, 1978, any area with an unemployment rate of 6 percent or more was considered an LSA. Since that time the criteria have changed; while an area must still have an unemployment rate of 6 percent, now the rate must also be at least 1.2 times the national rate. Further, any area with an unemployment rate of 10 percent or more will automatically qualify as an LSA, regardless of how its rate compares with the national rate. Also effective as of January 1, 1978, DOL modified its method of classifying LSA's for reporting purposes. The terms "Areas of Substantial or Persistent Unemployment," "Sections of Concentrated Unemployment or Underemployment," and "Major and Smaller Areas" were eliminated.

During Fiscal Year (FY) 1979, DOL began to define LSA's according to civil jurisdictions (city, county, state) rather than by labor market areas (employment areas considered single entities for reporting purposes).

regardless of the number of cities or states represented). Also during FY 1979, DOL began to assess an area's eligibility for becoming an LSA on an annual rather than a quarterly basis.

OVERVIEW

Table 1 provides data on DoD prime contract awards in LSA's for FY 1982, FY 1983, FY 1984, and the first half of FY 1985, both in terms of their net value and as a percent of total DoD procurement. Table 1 also shows the net value of all preference awards (those contracts awarded as either LSA set-asides, tie-bids, or combined LSA/small business set-asides) as well as the percent of total procurement and the percent of total LSA awards these preference awards represent. A third component of Table 1 shows the total number of civil jurisdictions within the United States and the number of designated LSA's within these jurisdictions.

Table 2 presents data on all LSA awards to U.S. business firms, by size of firm, according to the type of preference award used, where applicable. The first detail table, Table 3, shows the net value of all DoD prime contract awards in LSA's. Table 4 provides data on the net value of all preference awards which were LSA set-asides. The net value of all preference awards which were combined LSA/small business set-asides is shown in Table 5. Table 6 provides data on the net value of all preference awards which were tie bid awards.

The data in Tables 3, 4, 5, and 6 are presented by state, county, and city, according to the awarding agency, which can be either a military department, the Defense Logistics Agency (DLA), or the Army Corps of Engineers for Civil Functions (OCE). Awards by other defense agencies are included as part of the Army total.

HIGHLIGHTS

During the first half FY 1985, DoD prime contract awards over \$25,000 for performance in LSA's total \$20,197 million or 26.8 percent of all DoD awards, compared with \$20,474 million (31.5%) during the first half FY 1984. As shown below and in Table 1, LSA preference awards totaled \$19 million during the first half FY 1985, which was 0.1 percent of the total of all LSA awards. This represents a decrease of 0.8 percent over the comparable FY 1984 figures.

The amount of LSA set-aside awards, as a percentage of all LSA preference awards, decreased by 2.5 percent from first half FY 1984 to the first half FY 1985. The value of combined LSA/small business preference awards decreased by 4.5 percent. The amount of tie-bid preference awards as a percentage of all LSA preference awards increased by 7.1 percent.
